

Compete Against Top Corn Producers and UNL Scientists

Submit applications ASAP and no later than:

March 13, 2017

University of Nebraska-Lincoln
Testing Ag Performance Solutions
(UNL-TAPS)
Farm Management Competition

Can you out-farm a UNL scientist? Find out by entering a field competition for managing center pivot irrigated corn for the 2017 growing season. The contest will be held at the West Central Research and Extension Center (WCREC) in North Platte.

Contestants will make production and management decisions for individual plots, including: irrigation management, nitrogen management, hybrid selection, plant population, grain marketing and risk management.

CASH AWARDS:

1. Most Economically Profitable - \$2,000
2. Highest Input Use Efficiency - \$1,000
3. Highest Yield - \$500
