

Project SENSE Update

With one year under our belts, the Project SENSE participants are seeing positive results from the Project SENSE pilot program which focuses on improving the efficiency of nitrogen fertilizer use.

Arnie Hinkson has graciously agreed to host this summer's update. **Please join us!** Program will include:

- Introduction of SENSE Technology & Equipment Requirements
- 2015 Results: Where It Worked & Where It Didn't - See Results in Hinkson Field

DATE: Wednesday, July 27th TIME: 10:00 to Noon (Lunch provided at no cost.)

LOCATION: 2003 N Cameron Rd in Cairo, NE.

After presentations, we'll caravan to Arnie Hinkson's field site to see results.

Directions: From Husker Hwy & Hwy 11, drive 3 miles north to 13th Street, turn left, drive 2 miles to Cameron Road, turn right and go 3/8 mile. Site is on the east side.

Contact Dean Krull with questions: (402) 469-0155.

RSVP BY JULY 20
