

Instructions for completing corn entry form:

1. Enter the brand name (as you wish stated in final publications) here: _____
2. List all hybrids in column 1 of page 2 under "hybrid name."
3. Place a number "1" in boxes to designate where each variety is to be entered. (See the map on page 4 for site locations).
4. Calculate the total pounds of seed needed per variety and total cost per location (entry cost and pounds of seed are at the top of each column). *These totals will be automatically calculated if using the spreadsheet.*
5. Complete the variety information table on page 3 for each variety entered.
6. Complete the company contact information section on page 3.
7. Return one copy of the application via mail, email, or fax.
8. Make checks payable to *Department of Agronomy* for the grand total and send to the address below.
9. Send the total amount of seed needed for each variety to the shipping address below.
10. Please note that we reserve the right to charge additional handling fees for late entries or late delivered seeds.
11. Additional blank forms are available online at: <http://varietytest.unl.edu>

Entries are due by **March 15, 2016**. Early entry submission is highly encouraged!
