

High Plains Advanced Cropping School: Wheat and Field Peas

June 21-22, 2016
(Repeated June 23-24 if needed)

UNL Panhandle Research and Extension Center
Scottsbluff, Nebraska

About the school:

The 2016 Panhandle Advanced Cropping School for Winter Wheat and Field Peas is an *in-depth, field-oriented, hands-on workshop* designed to teach the management of winter wheat and field pea production, including the diagnosis of production problems in the western Great Plains and Rocky Mountains. A special emphasis will be placed on stress-related problems that can cause yield reduction. Nebraska CCA (Certified Crop Advisor) credits will be applied for and can be earned upon completion of the workshop. Check with your state for reciprocity with the Nebraska certified crop advisor program. NOTE: This is a two-day school. The first registrations will fill the June 21-22 session. Addition of the June 23-24 session is contingent on receiving enough registrations.

Schedule:

June 21:

8:00.....Registration, presentations
12:45.....Lunch
1:45.....Afternoon sessions
6:30.....Dinner at Weborg 21 Centre

June 22:

9:00.....Presentations
Noon:.....Adjourn

NOTE: If registrations exceed 100, an additional session will be scheduled for June 23-24

Topics and Presenters:

- **Growth Stages**
(Cody Creech, UNL Dryland Cropping Systems Spec.)
- **Diagnosing Herbicide Injury in Crops**
(Nevin Lawrence, UNL Integrated Weed Management Specialist)
- **Insects xxxxxxx** (Jeff Bradshaw, UNL Entomologist)
- **Identifying Diseases and Distinguishing Between Them** (Bob Harveson, UNL Plant Pathologist)
- **Managing Nutrients and Predicting Yield**
(Cody Creech, UNL Dryland Cropping Systems Spec.)
- **Emerging Technologies for Site-Specific Irrigation Management** (Amir Haghverdi, Irrigation Water Management Specialist)
- **Hail Disruption of Apical Dominance in Pea**
(Alexander Pavlista, UNL Crop Physiologist)
- **Pea Genetics in Yield Loss from Hail or Other Mechanical Damage** (Dipak Santra, UNL Alternative Crops Breeding Specialist)
