

Nebraska

N EXTENSION

COVER CROP CONFERENCE

Thursday, Feb. 15, 2018

at the Eastern Nebraska Research
and Extension Center near Mead, NE

9:00 a.m. - 3:30 p.m. Registration at 8:30 a.m.

How can you **get started** with cover crops in your corn/soybean rotation? **Already using** cover crops - could you be doing it better?

There are many benefits to utilizing cover crops, such as improved soil health and reduced erosion. It's the details of how and what to do that can present challenges. *The focus of the conference is to provide information to growers who are strictly in a corn/soybean rotation and to assist them in understanding the value of cover crops.* **Pre-register by Feb. 9** to ensure resource materials are available and for meal planning purposes. Call 402-624-8030 or email cdunbar2@unl.edu.
