

Diversification & the Future of Farming: A Panel Discussion

The future of farming in Nebraska relies on our future generations and the agronomic practices implemented today. Learn the successes and challenges from UNL alumni who own and operate farms that include diversified crops. Featured speakers are from AgriForce Seed, Fox Run Farms, Wolff Farms, and Pekarek's Produce. This event is free and open to the public.

Tuesday, April 9, 2019, 6 P.M.
199 Plant Science Hall
UNL East Campus
