WHY COME TO THIS TRAINING?

- The 2014 Farm Bill Commodity provisions are complex. Speakers include nationally recognized Ag Economists Dr. Brad Lubben, UNL, and Dr. James Richardson, Texas A&M, the author of a cutting edge computer decision tool endorsed by USDA.
- Attendees will learn how to use the Computer Decision Aid and how to interpret the results. Please bring your own iPad, tablet or laptop computer to this meeting.
- Teaching assistants in the afternoon can help you with questions on your own farm examples. (Information needed to run the program is the August 2014 FSA letter or FSA 156EZ or similar worksheet and the 10-year crop insurance production report history worksheet from your insurance agent).
