

Spring-Planted Cover Crops Sidney, Nebraska (2023)

Location: **Sidney, NE**

Year: **2023**

Planting: **April 03**

Termination: **June 01**

- Species: **Hayden oat**
- Ground cover (%): **36**
- Plant height (inch): **11**
- Biomass (lbs./ac): **787**

- Species: **Jerry oat**
- Ground cover (%): **40**
- Plant height (inch): **12**
- Biomass (lbs./ac): **1404**

- Species: **Goliath oat**
- Ground cover (%): **37**
- Plant height (inch): **13**
- Biomass (lbs./ac): **810**

Location: **Sidney, NE**

Year: **2023**

Planting: **April 03**

Termination: **June 01**

- Species: **Lavina barley**
- Ground cover (%): **48**
- Plant height (inch): **10**
- Biomass (lbs./ac): **861**

- Species: **Robust barley**
- Ground cover (%): **42**
- Plant height (inch): **12**
- Biomass (lbs./ac): **835**

- Species: **P919 barley**
- Ground cover (%): **38**
- Plant height (inch): **09**
- Biomass (lbs./ac): **594**

Location: **Sidney, NE**

Year: **2023**

Planting: **April 03**

Termination: **June 01**

- Species: **4010 pea**
- Ground cover (%): **13**
- Plant height (inch): **08**
- Biomass (lbs./ac): **327**

- Species: **Wyowinter pea**
- Ground cover (%): **13**
- Plant height (inch): **05**
- Biomass (lbs./ac): **287**

- Species: **Survivor pea**
- Ground cover (%): **18**
- Plant height (inch): **05**
- Biomass (lbs./ac): **302**

Location: **Sidney, NE**
Year: **2023**

Planting: **April 03**
Termination: **June 01**

- Species: **Surge triticale**
- Ground cover (%): **38**
- Plant height (inch): **10**
- Biomass (lbs./ac): **515**

- Species: **Petite faba**
- Ground cover (%): **09**
- Plant height (inch): **06**
- Biomass (lbs./ac): **227**

- Species: **Jerry oat**
- Ground cover (%): **40**
- Plant height (inch): **12**
- Biomass (lbs./ac): **1404**

Location: **Sidney, NE**
Year: **2023**

Planting: **April 03**
Termination: **June 01**

- Species: **Bonar rapeseed**
- Ground cover (%): **11**
- Plant height (inch): **04**
- Biomass (lbs./ac): **236**

- Species: **Impact collard**
- Ground cover (%): **08**
- Plant height (inch): **03**
- Biomass (lbs./ac): **180**

- Species: **Barsica rapeseed**
- Ground cover (%): **12**
- Plant height (inch): **04**
- Biomass (lbs./ac): **247**

Location: **Sidney, NE**

Year: **2023**

Planting: **April 03**

Termination: **June 01**

- Species: **Mixture of Goliath oat + 4010 pea**
- Ground cover (%): **25**
- Biomass (lbs./ac): **610**

- Species: **Mixture of Hayden oat + 4010 pea**
- Ground cover (%): **29**
- Biomass (lbs./ac): **726**

- Species: **Mixture of Surge triticale + 4010 pea**
- Ground cover (%): **38**
- Biomass (lbs./ac): **810**

Location: **Sidney, NE**

Year: **2023**

Planting: **April 03**

Termination: **June 01**

- Species: **Mixture of *Lavina* barley + 4010 pea + *Barsica* rapeseed**
- Ground cover (%): **38**
- Biomass (lbs./ac): **808**

- Species: **Mixture of *Goliath* oat + 4010 pea + *Barsica* rapeseed**
- Ground cover (%): **25**
- Biomass (lbs./ac): **498**

- Species: **Mixture of *Surge* triticale + 4010 pea + *Barsica* rapeseed**
- Ground cover (%): **19**
- Biomass (lbs./ac): **379**
