\* Variety means are LSMEANS derived from spatial variability statistical analysis for mixed models.  
Therefore, year totals will not be the arithmetic sum of individual cuts.

DESIGN: Randomized block  
SEEDING METHOD: Carter cone drill  
SOIL TYPE: Crete silt loam

PLOT SIZE: 9 rows, 4.5' x 14'  
3' x 14' harvested  
PLANTING DATE: Sept. 9, 2010  
REPS: 4
